

## SUMMARY

Master's student in Computer Science at Manipal University Jaipur with a strong foundation in Java application development and front-end technologies. Experienced in designing and developing a full-featured Bank Management System using **Java**, **JDBC**, **Java Swing**, and **MySQL**, incorporating secure user authentication, account management, fund transfers, and transaction tracking. Proficient in modern front-end development with **HTML5** and **CSS3**, demonstrated through the creation of a responsive, minimalist personal portfolio website. Organized, proactive, and detail-oriented team player with a passion for building scalable, user-centric software solutions.

## EXPERIENCE

**FREELANCE GRAPHIC DESIGNER** | Self-Employed | Remote

Oct 2025 – Dec 2025

- Created social media and promotional creatives for a business Instagram handle (200K+ followers)
- Collaborated with clients to deliver visually consistent designs within deadlines
- **Design Portfolio:** [Google Drive](#)

## EDUCATION

**MASTER'S DEGREE** | Computer Applications | Manipal University Jaipur

2024 – Present

CGPA – 9.0

**BACHELOR'S DEGREE** | Computer Applications | Manipal University Jaipur

2021 – 2024

CGPA – 8.84

## SKILLS

**Programming & Databases:** Java, JavaScript, HTML, CSS, SQL, MySQL.

**Web & Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap, Responsive Design, UI Development, Personal Portfolio Website.

**Software Development (Foundational):** Core Java, Object-Oriented Programming (OOP), JDBC Connectivity, Java Swing, MySQL, CRUD Operations, Authentication & Authorization Concepts.

**Tools & Platforms:** Git, GitHub, VS Code, HTML, CSS.

## PROJECTS

**Personal Portfolio Website:** Designed and built a responsive portfolio website to showcase technical projects and skills, with clean UI, structured layouts, and mobile responsiveness for professional presentation. Tech: HTML, CSS, JavaScript | [GitHub](#).

**Spotify Web UI Clone (HTML & CSS):** Designed a HTML5 and CSS3 frontend responsive version of a Spotify clone that mimicked key application elements, including sidebar navigation, playlists, media player and trending. Applied CSS animations, transitions as well as Flexbox layout to improve the user experience and visual interaction.

**Bank Management:** Developed a Java and MySQL Bank Management System implementing JDBC connectivity and CRUD operations for secure account management and transaction processing, including authentication, fund transfers, and transaction history tracking. Tech: Java, JDBC, MySQL, Java Swing
